### UKRAINE - Opfordring til at forlade Ukraine hurtigst muligt

UKRAINE: Kære dansker. Vi opfordrer fortsat til, at du forlader Ukraine hurtigst muligt. Mange lande opfordrer nu til udrejse og det skaber pres på flyforbindelserne ud af Ukraine. Der er desuden risiko for, at mulighederne for udrejse med fly kan indskrænkes med kort varsel. Udrejse over landegrænser er fortsat mulig, men der kan også komme pres på grænseovergangene og rejseruterne dertil. Hvis du fortsat vælger at blive i Ukraine, er det på eget ansvar og vi kan komme i en situation, hvor vi får svært ved at hjælpe dig. Hvis du befinder dig i Ukraine, bør du registrere dig på Danskerlisten: https://danskerlisten.um.dk/. Hvis du står på Danskerlisten og ikke har været i kontakt med os, opfordrer vi dig til at kontakte Udenrigsministeriets globale vagtcenter <u>24/7</u> på +45 på <u>33 92 04 00</u> eller BBB@um.dk. Hvis du ikke opholder dig i Ukraine, er det super-vigtigt at du afmelder dig på Danskerlisten. Ved behov for akut rådgivning kan du kontakte Udenrigsministeriets globale vagtcenter 24/7

### 24th of February 2022

A very hard day...

24th of February 2022

A date that will live in infamy forever.

Ukraine wakes up by Russian forces relentlessly bombing airports and strategic positions around the country with cruise missiles, attack helicopters and fighter jets.

Tanks rolls over the border later in the day causing havoc and destruction in their path...

The Ukrainian army fights back with tooth and nail and does one hell of a job keeping the invaders at bay to protect their freedom - but it's just day one so far - it's not over yet.

I came here 9 years ago with nothing - and was met by a people that welcomed me with open arms. I've worked with many Ukrainians over the years and have come to have the deepest respect for them as a people that works unbelievably hard for all the same things I do... same as anyone do...

Freedom, security and the right to the pursuit of happiness.

Everything I have today that I care about is in Ukraine... my loving wife, my home, my work and my colleagues are all here, and I wouldn't have any of that if wasn't for the Ukrainian people and this wonderful country.

It might say that I'm Danish on my passport, but Ukraine is where I belong, it's my home too...

The world needs to understand that this is not just an attack on Ukraine... this is a brutal attack on the free world... and the rest of the world has to decide very soon if that really means anything, or if it will just stand idle by and watch while a democracy is being bombed mercilessly while pleading for help to defend itself...

Memberships or not... someone will have to tell future generations why nobody stood up for freedom and democracy when it really mattered...

Today it was military targets... tomorrow it might be energy infrastructure... if that happens Ukraine will be cut off from the world and it will be way more difficult to tell anyone what's happening here...

So believe me when I say that Putin's "reasons" are utterly false and frankly the worst load of bullshit you will ever hear.

So I ask everyone I know to tell the stories

that I, and a lot of people like me has told from here over the years - about all the promises that this country holds, tell them about the people here... tell them that you know for a fact that the people here are just like you and me... a proud hardworking people that has done nothing to

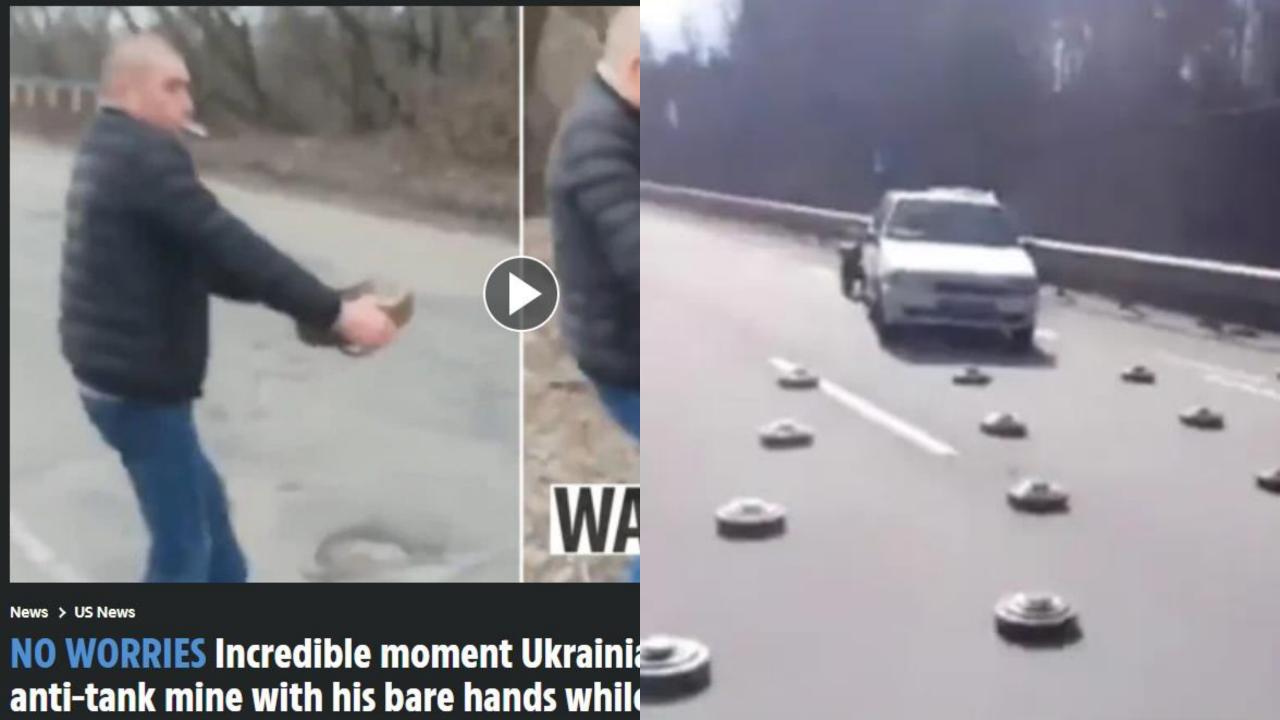

@artvoulture

Thank you, world
