

# DANISH FARMERS ABROAD

Become The Next Generation of  
Agricultural Leaders

## What We Stand For

### Respect for Nature & Sustainable Agriculture

We promote responsible, sustainable farming that protects nature and guides every aspect of our operations.

### Commitment to Best Farming Practices

We focus on excellence in operations, productivity, and innovation.

### People- Centered Culture

We value and invest in the development of our people, teams, and leadership potential.

### Training & Leadership Networking

We invest in future farm leaders through educational partnerships and training, while our members actively exchange practical knowledge and leadership insights.

## Who We Are

Danish Farmers Abroad (DFA) is a professional association founded in 2007, representing Danish-owned agricultural companies operating both in Denmark and internationally.

Today, DFA brings together companies across 44 countries, creating a **strong international platform** for collaboration, knowledge-sharing, and agricultural innovation.

Our membership includes:  
Agricultural production companies  
Suppliers and service providers in the agro-industrial sector  
Individuals passionate about progressive farming

**We act as a catalyst** for sustainable growth, innovation, and professional networking in the global agricultural sector.

# PRACTICAL MANAGEMENT AND LEADERSHIP

## Grow Into Leadership

The Danish Farmers Abroad and the Academy of Agricultural Business training program is a modular, internationally-oriented grounding track that strengthens practical management and leadership skills; tailored for employees working in agricultural production across borders.

## Who is it for?

Mid-level to senior staff working on farms or in agri-business operations abroad.

Ideal for:

- Team leaders who manage small crews or departments.
- Unit managers responsible for multiple teams or production units.
- Farm managers or those preparing to take full farm responsibility.

## Why Choose This Program?

- Developed by DFA and Dalum Academy, two trusted names in international agricultural education.
- Fully taught in English and designed for cross-border, multicultural learning environments.
- Enroll at the level that matches your current role and career path.
- Focused on real-life management challenges, not just classroom theory.
- Apply learnings through assignments and case studies based on your own farm or team.

\* Certification as agreement between DFA and Dalum

\*\* Certification as agreement between DFA and Dalum. Optional ECTS-level on single subjects
