

Welcome to New Members of Danish Farmers Abroad

Expanding the Community and Focusing on Sustainability

As many of you know, we updated our Articles of Associations at the last general meeting to allow the inclusion of new members. It is with great excitement that we welcome a number of new companies to Danish Farmers Abroad. Their participation will strengthen and diversify our community, and we are confident they will greatly benefit from the extensive network we offer.

A Community with Strong Values

Danish Farmers Abroad is not just a network—it's a place where farmers come together around shared values and challenges in agriculture and food production. We are built on trust, collaboration, and the sharing of experiences. The new members bring fresh perspectives and valuable expertise, making our community even more vibrant.

Focus on Sustainability

The world is changing rapidly, and the demand for green and sustainable development continues to grow. Danish Farmers Abroad are committed to promoting eco-friendly solutions and innovative initiatives in the agricultural sector. The new members will help drive these efforts forward and strengthen our push for a greener future.

A Global Network

One of our greatest strengths is our extensive network, which provides access to resources and collaborators worldwide. Here, we share knowledge about modern agricultural technologies, sustainability, and business development—both through our many exchange groups, webinars, study trips and conferences. With the addition of new members, this network becomes even more inspiring and valuable.

We aim for continued growth in our community to find more and better solutions to the challenges we face in the agricultural and food sectors, particularly concerning society's increasing demands for greener, more climate-friendly, and sustainable production methods.

Welcome to Danish Farmers Abroad!

We look forward to collaborating with you and achieving remarkable results together.
